

BMP41

LABEL PRINTER

**Optimal performance
in rugged conditions**

Optimal performance in rugged conditions

Reliable for your most detailed work and rugged enough to use every day, the BMP41 Label Printer is a must-have for DataCom and electrical professionals. Create and print labels on the spot with its QWERTY keypad or in batches at the office with Brady Workstation software. This printer can help you power through work faster, with its programmed pre-set label options for wire marking, flagging and patch panel ID.

Top applications

DataCom

Self-lam, flag labels, patch-panel, face plate labelling

Electrical

Sleeves, self-lam, wire wraps, cable markers, flag and raised panel

Wire and cable

Sleeves, self-lam, wire wraps, flag labels, cable markers

General identification

Directional marking, equipment labelling

Unique features

- Create labels quicker using a QWERTY keypad or USB connected with Brady Workstation label creation software
- Easy-to-use on-board menu options for seven different label formats, serialisation, fonts and text orientation and the ability to store 288 label files up to 48MB
- 480 on-board symbols and code 128 and 39 barcodes for various applications
- Window on printer lets you view 110+ different installed label cartridges
- 14 label material types for multiple applications in continuous and die-cut options with label widths up to 25.4 mm (1.0 inch)

Label output

- Speed: Prints up to 250 labels / day at 33.0 mm (1.3 inches) per second
- Quality: 300 dpi print resolution

Optional accessories

- Attachable magnet for hands-free label creation
- Rechargeable NiMH battery
- Hard and soft carrying cases to protect your label printer and keep accessories organised
- Quick charger

Large window on cover-door shows installed cartridge

Popular rotating self-laminating vinyl, shrink sleeves, wire wraps, QuickFlag, BradyGrip print-on hook material and indoor/outdoor vinyl are offered in enclosed cartridges

Quick-key options for wire marking, flags, patch panels that are ideal for datacom and electrical professionals

QWERTY style keypad and hot keys for easier typing and reducing errors

Withstands 1.2 m drops for added jobsite durability

Simple all-in-one, drop-in cartridges for quick and easy supply change and automatic label setup

Enjoy a premium labeling experience with Authenticated materials

Large graphical LCD display with backlight to see exactly what you're printing

Textured rubber overmolding for better grip

Rechargeable battery for long lasting power supply

High-performance labeling driven by Brady's Authenticated Technology

Settings are automatically adjusted to the correct material size, type, colour, quantity and compatibility. Brady's Authenticated Technology also sets up optimal burn settings and print speed. Simple and intuitive.

Applications

VOICE & DATACOM IDENTIFICATION

Cable flags

Punch block & patch panel labels

Self-laminating cable markers

Rotating self-laminating cable markers

BradyGrip print-on hook material

ELECTRICAL IDENTIFICATION

Terminal block markers

PermaSleeve wire marking sleeves

Control panel & electrical panel labels

FACILITY & SAFETY IDENTIFICATION

Indoor / outdoor grade facility & safety labels

Warehouse identification

General industrial labels

Enjoy a more premium labelling experience with optimised Brady Authentic materials

Authentic materials work seamlessly with Brady printers to produce enhanced performance and reliability you just don't get with materials from the others. We've got you covered with the widest range of colours, finishes and targeted applications in the industry. Get authentic. Get better with Brady.

Material overview

Material	Finish	Temp (°C) (Tested for 30 days)		Additional Features	Approval/Compliance
		Min.	Max.		
Heat-shrink Polyolefin					
B-342	Matt	-55 °C	130.6 °C	3:1 ratio heat shrinkable wire marking sleeve that fits snugly around wires for identification and protection. Fade-resistant and flame retardant.	UL Recognised to UL224, SAE-AMS-DTL-23053/5 C (Class 1), SAE AS-81531
B-7641	Matt	-55 °C	105 °C	2:1 ratio heat shrinkable, low-smoke, halogen-free wire marking sleeve that fits snugly around wires for identification and protection.	BS-6853 (1999) Vehicle Category 1A; EN-45545-2, requirement 24, Vehicle Category HL3, Zero Halogen
Metallised Polyester					
B-428	Matt	-70 °C	120 °C	Thermal transfer printable metallised polyester with matt finish. Withstands solvents and variable temperatures. Excellent for serial and rating plate applications with name-plate quality and a metal-looking finish.	UL Recognised, CSA Accepted, AGA Approved, Halogen Free (DIN VDE 0472/part 815)
Nylon Cloth					
B-499	Matt	-40 °C	90 °C	Nylon cloth material with matt finish. The adhesive allows labelling in environments with heat, cold, oil and dirt. Also available in yellow.	UL Recognised, CSA Accepted, Halogen Free (DIN VDE 0472/part 815) Approvals are for White material only
Paper					
B-403	Matt	-70 °C	100 °C	White dissolvable paper. Dissolves completely in water leaving no adhesive residue, ideal for temporary labelling applications	
Polyester					
B-414	Matt	-40 °C	50 °C	Get a grip on your wire and cable identification – Brady and VELCRO® Brand have partnered to bring you BradyGrip™ Print-on Hook Material, an exclusive print-and-place material that can be easily applied, repositioned or removed.	
B-422	Gloss	-40 °C	100 °C	Designed to withstand solvent exposure. Used for component identification, barcoding, asset and inventory tracking.	UL Recognised, CSA Accepted
B-483A	Gloss	-40 °C	120 °C	White polyester thermal transfer printable material with glossy finish and aggressive adhesive specifically designed for powder coated surfaces.	UL Recognised, CSA Accepted
Polypropylene					
B-412	Matt	-40 °C	100 °C	White polypropylene tag material with matt finish. Offers high print legibility and high tensile strength.	
Reflective Tape					
B-584	Gloss	-40 °C	70 °C	Suitable for outdoor use. Also available in silver and yellow.	
Self-laminating Vinyl					
B-417	Matt	-40 °C	70 °C	Keep your wire identification secure with this self-laminating marker with extra-strong adhesive. The extra-strong adhesive makes these markers ideal for small-diameter wires. Features a white printable area and a clear tail that wraps around the marker.	UL Recognised to UL969 Labelling and Marking Standard when printed with the Brady Series R4300 and R7950 ribbons. See UL files MH62024 for specific details. Brady customers should specify at purchase if they require UL Recognised B-417 labels. Brady sells both UL Recognised B-417 labels and non-approved labels depending on customer requirements
B-427	Matt	-40 °C	60 °C	Thermal transfer printable, self-laminating material. These labels have a printable area with a clear “tail” that wraps around the marker. The “tail” serves as overlamine to protect the print. Superior resistance to abrasion, solvents, water, oil and dirt. Also available in grey, brown, green, yellow, blue, red, purple, orange.	UL Recognised to UL969 Labelling and Marking Standard when printed with the Brady Series R4300 and R6200 ribbons. See UL files MH17154 for specific details. Brady customers should specify at purchase if they require UL Recognised B-427 labels. Brady sells both UL Recognised B-427 labels and non-approved labels depending on customer requirements.
Vinyl					
B-595	Gloss	-40 °C	82 °C	Durable, low-shrink vinyl with our most aggressive adhesive. Conforms to irregular, curved, rough and highly textured surfaces (painted cinder blocks, uneven wood, textured plastics, paper-jacketed pipes, powder-coated surfaces). Adheres to “difficult” low-surface energy items (PVC piping, blow-moulded equipment cases, ABS plastics, recycled plastics). Available in a wide range of colours.	BS 5609:1986 Section 2 and section 3
Vinyl Cloth					
B-498	Semi-gloss	-40 °C	80 °C	White vinyl cloth label material with glossy finish. The adhesive and cloth backing give excellent holding power, while being repositionable and removing cleanly.	UL Recognised

Voice & datacom identification

Router, server, faceplate, outlet and patch panel labels

Create the labels you need in one easy process. Create a fully-formatted serialised punch block label to fit your equipment or label your ports, jacks and outlets with adhesive labels or slide-in strips.

- Developed to withstand abrasion and low temperatures
- Designed to withstand exposure to numerous solvents
- High adhesion to textured metals, powder coated surfaces and low surface energy plastics

Self-laminating wire & cable markers

Self-laminating markers feature a printable zone in white or yellow and a transparent, non printable area that wraps around wires and cables and serves as an overlaminate to the printed text.

- Designed to adhere to highly curved surfaces, wires and cables
- Superior resistance to abrasion, handling, solvents, water, oil, dirt and more

Voice & datacom identification

High adhesion self-laminating wire & cable markers

B-417 high-adhesion self-laminating vinyl wraps are for tough conditions, including high-humidity environments, small diameter wires and newer wire jacketing materials. Features a white printable area and a clear overlaminating area that protects the print.

- Dependable, long-term adhesion to small diameter wires
- Strong adhesion to a variety of wire jacketing materials, including Teflon™, silicone, braided and traditional PVC

Rotating self-laminating wire & cable markers

The B-427 self-laminating Rotating Label can be rotated around a cable thanks to a non-adhesive printable zone and a translucent, self-adhesive laminate that is wrapped around a cable.

- Faster cable identification thanks to a label that can be rotated around a cable to make its print visible from any angle
- Industrial grade label that stays attached and remains legible on cables and components
- Spins freely around your Cat 5 and fiber optic cables, no adhesive residue or label parts to cling to your wires

BradyGrip™ print-on hook material

BradyGrip™ Print-on Hook Material is a one-of-a-kind solution that allows identification to be easily printed and placed on bundles. A grippy backing makes it easy to reposition or remove, so no need for costly rework. Just print on and place - it's that simple.

- Maximises your uptime with faster, printable ID for cable bundles.
- Apply, reposition and remove with exclusive, print-and-place material.
- Offers a non-damaging alternative to nylon cable ties.
- Customise labels to fit big or small jobs by printing on different-width material.
- VELCRO® Brand ONE-WRAP® product not included with purchase.

Electrical identification

PermaSleeve PS Wire Marking Sleeves

Permanently mark wires with the durable PermaSleeve PS heat-shrink polyolefin sleeve label material, designed specifically for rigorous cable and wire marking applications.

- **Durable:** Self-extinguishing and resistant to extreme temperatures, UV light, chemicals, fuel and oil.
- **Efficient:** Fast shrinking with 3:1 shrink ratio; permanently adheres to wires quickly with a heat gun.
- **Certified:** UL Recognised to UL 224, RoHS Compliant to 2011/65/EU (Pass 2015/863), SAE AS23053/5 (Class 1), SAE AS-81531, MIL-STD-202.

PermaSleeve Low Smoke Zero Halogen Wire Marking Sleeves

Permanently mark wires and cables with the low-smoke, halogen-free B-7641 polyolefin label material, designed for mass-transit and marine applications where flame-retardant, low-smoke wire marking materials are required.

- **Durable:** Flame-retardant and resistant to temperatures from -30°C to 105°C.
- **Efficient:** Fast shrinking with a 2:1 shrink ratio; permanently adheres to wires quickly with a heat gun.
- **Certified:** RoHS compliant to 2011/65/EU (Pass 2015/863).

Self-laminating Wire & Cable Markers

Self-laminating markers feature a printable zone in white or yellow and a transparent, non printable area that wraps around wires and cables and serves as an overlamine to the printed text.

- Designed to adhere to highly curved surfaces, wires and cables
- Superior resistance to abrasion, handling, solvents, water, oil, dirt and more

High adhesion self-laminating wire & cable markers

B-417 high-adhesion self-laminating vinyl wraps are for tough conditions, including high-humidity environments, small diameter wires and newer wire jacketing materials. Features a white printable area and a clear overlaminating area that protects the print.

- Dependable, long-term adhesion to small diameter wires
- Strong adhesion to a variety of wire jacketing materials, including Teflon™, silicone, braided and traditional PVC

Electrical identification

Rotating self-laminating wire & cable markers

The B-427 self-laminating Rotating Label can be rotated around a cable thanks to a non-adhesive printable zone and a translucent, self-adhesive laminate that is wrapped around a cable.

- Faster cable identification thanks to a label that can be rotated around a cable to make its print visible from any angle
- Industrial grade label that stays attached and remains legible on cables and components

Wrap Around Wire & Cable Markers

Durable vinyl cloth wrap around wire and cable markers made with an adhesive that allows the markers to be removed cleanly and re-applied if necessary.

- Highly unique adhesive and cloth construction
- Ideal choice for marking both ends of a wire that may need be cut shorter before final termination

Electrical identification

Terminal block markers

Specially designed markers that offer a highly unique adhesive and vinyl cloth construction for excellent holding power, while still allowing for clean removal and application.

- Specially designed narrow-width continuous label for alignment on terminal blocks and patch panels
- Software can auto-serialise these labels to help save you time

Enjoy a more premium labelling experience with optimised Brady Authentic materials

Bin, storage, reflective and general industrial labels

Choose from several materials and types of labels that offer an aggressive adhesive for use in commercial and industrial applications. Bin, storage & industrial labels are ideal for commercial / industrial applications, while reflective can be used for low light or inclement weather conditions.

- Recommended for low surface energy and textured surfaces
- Reflective is ideal for outdoor utility poles and pedestals, equipment on site and rooftop equipment

Facility & Safety Identification

Indoor/Outdoor Grade Facility & Safety Labels

Pliable vinyl that conforms well to smooth or rough surfaces such as pipes, walls, doors, panels, shelving, bins and equipment. Lasting up to 8-10* years outdoors, these labels offer excellent resistance to oils, detergents, dirt, grime and many solvents.

- Durable, low-shrink vinyl with our most aggressive adhesive
- Works for a variety of applications , including 5S labels, pipe markers, arc flash, chemical labels and more

* Average expected outdoor life of product will depend on user definition of failure, climatic conditions, mounting techniques and material colour. The 8 to 10 year outdoor durability applies to the vinyl label stock only; ribbon durability will vary. A polyester overlaminate is recommended for harsh environments - long term exposure to wind and rain.
